or statement under the Private Securities Litigation Reform Act of 1995:

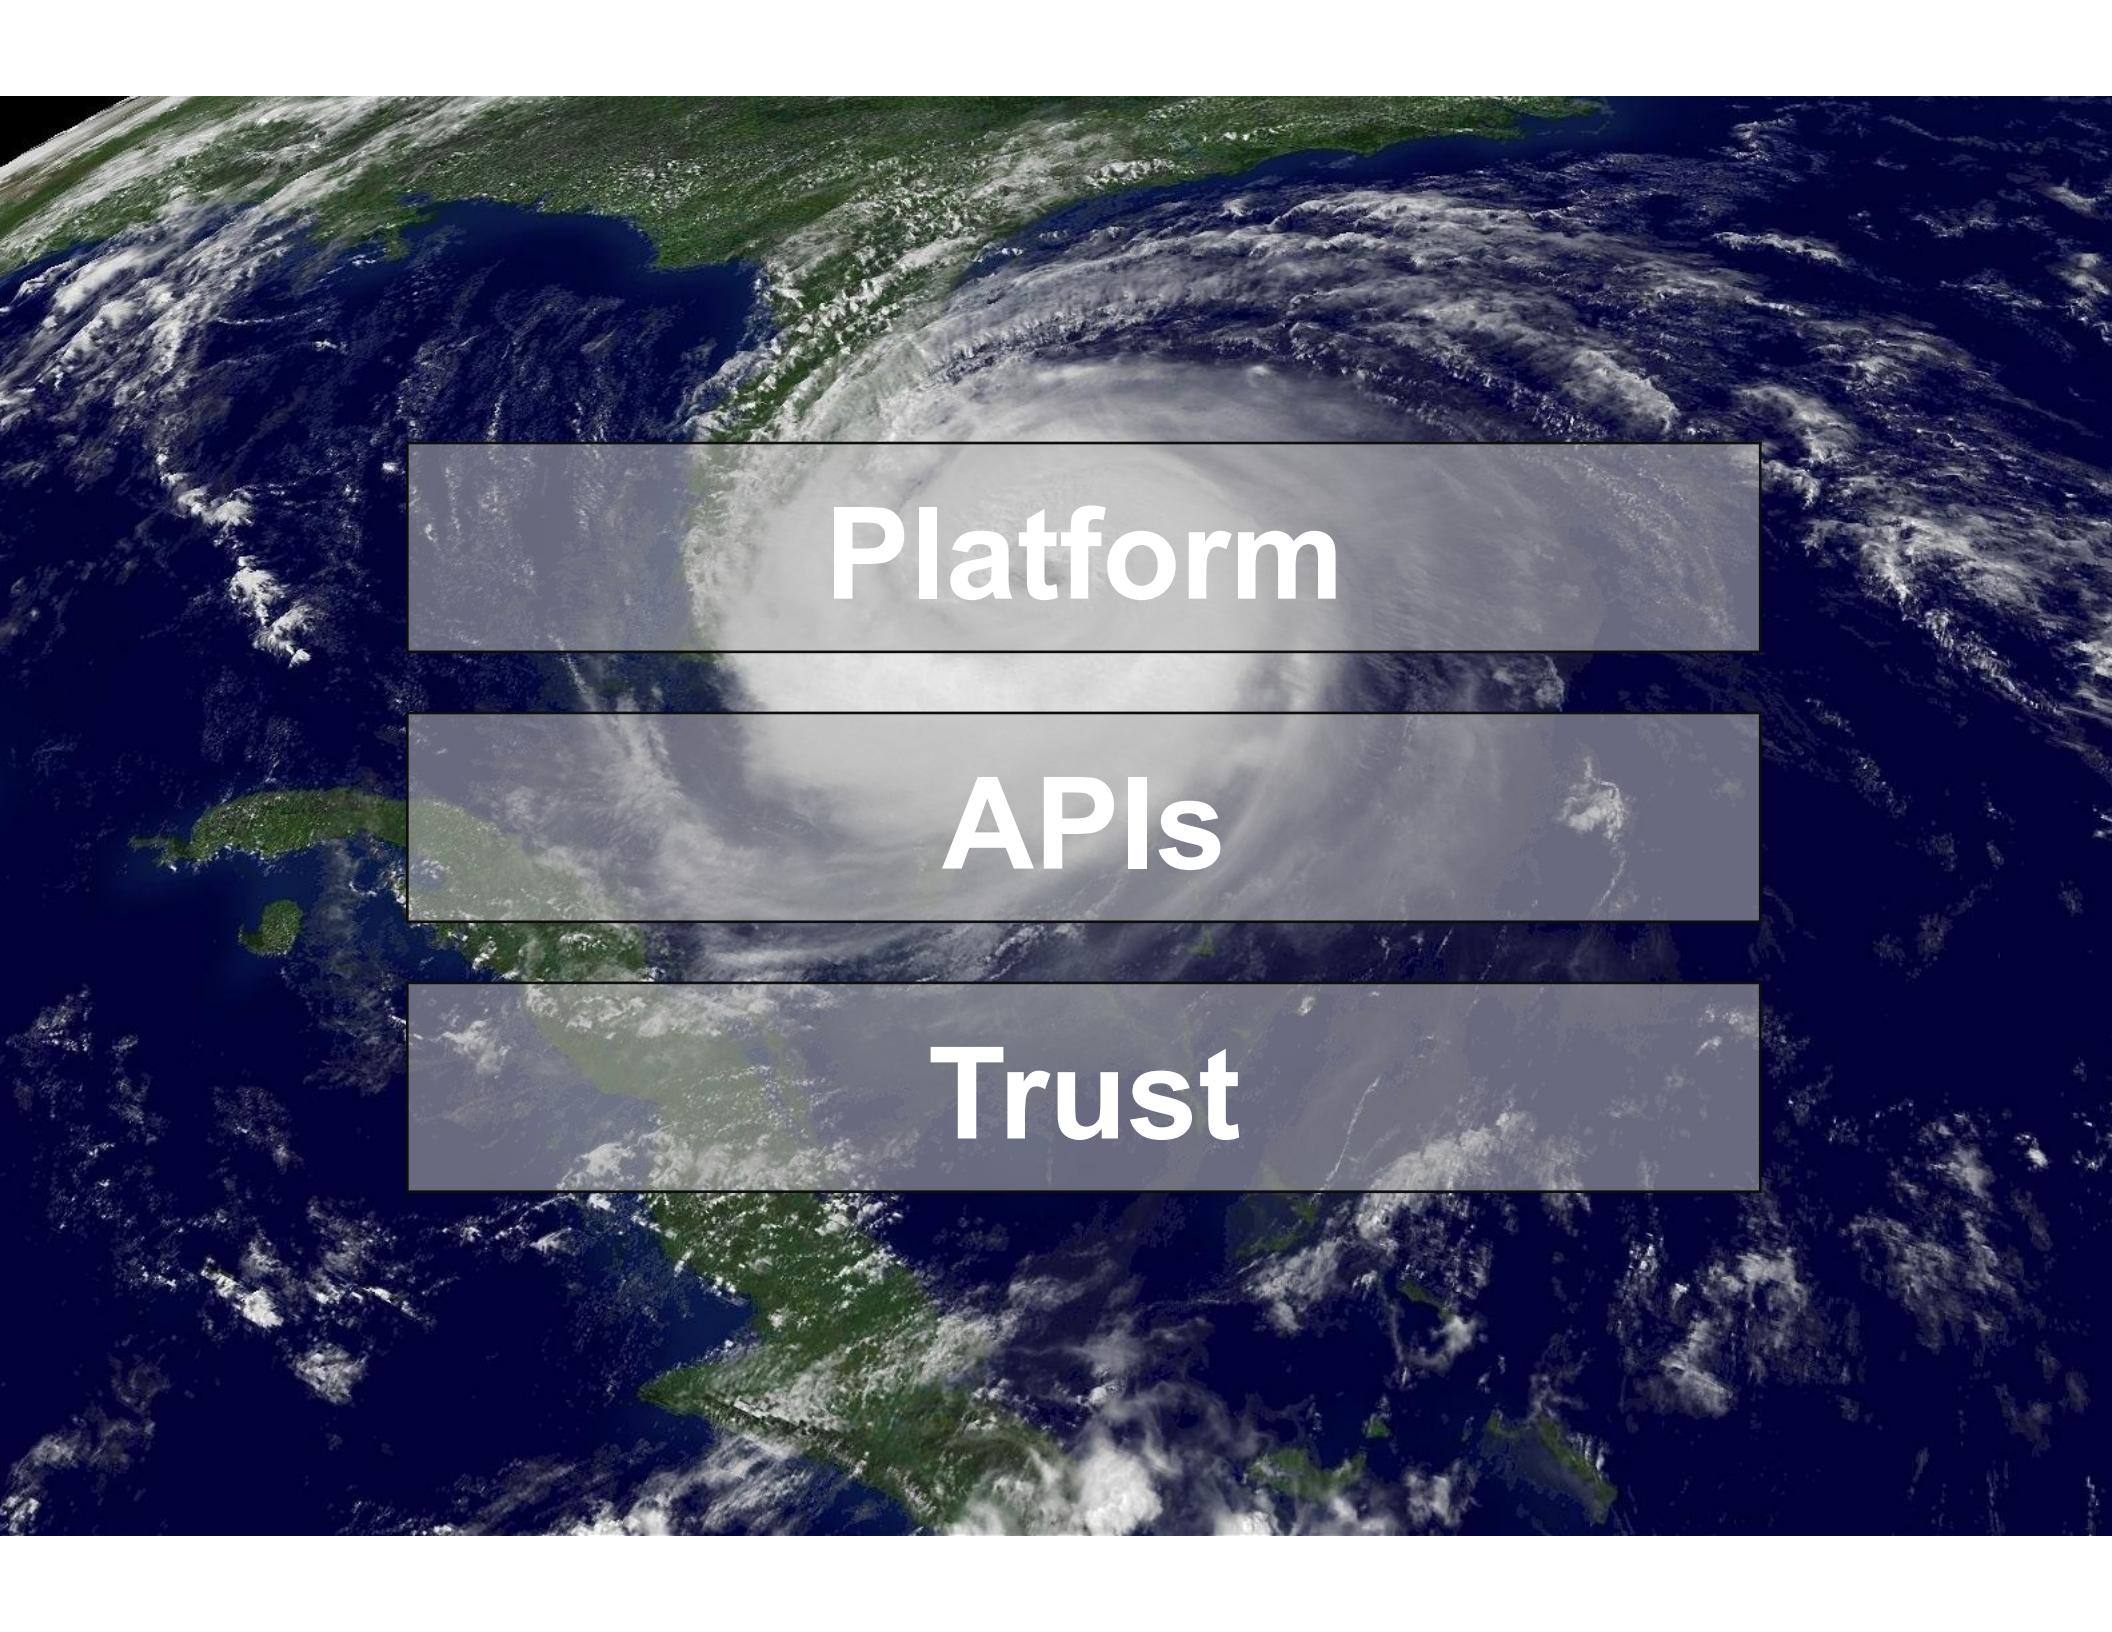

entation may contain forward-looking statements that involve risks, uncertainties, and assumptions. If any such uncertainties materialize or if options proves incorrect, the results of salesforce.com, inc. could differ materially from the results expressed or implied by the forward-looking statements we make. All statements other than statements of historical fact could be deemed forward-looking, including any projections of product or service offerings, subscriber growth, earnings, revenues, or other financial items and any statements regarding strategies or plans of management for future products, statements of belief, any statements concerning new, planned, or upgraded services or technology developments and customer contracts or services.

and uncertainties referred to above include – but are not limited to – risks associated with developing and delivering new functionality for our products and services, our new business model, our past operating losses, possible fluctuations in our operating results and rate of growth, interruptions in our Web hosting, breach of our security measures, the outcome of any litigation, risks associated with completed and any possible mergers and acquisitions, the immature market in which we operate, our relatively limited operating history, our ability to expand, retain, and motivate our employees, our growth, new releases of our service and successful customer deployment, our limited history reselling non-salesforce.com products, and selling and selling to larger enterprise customers. Further information on potential factors that could affect the financial results of salesforce.com, inc. can be found in our annual report on Form 10-K for the most recent fiscal year and in our quarterly report on Form 10-Q for the most recent fiscal quarter. These reports and others containing important disclosures are available on the SEC Filings section of the Investor Information section of our Web site.

released services or features referenced in this or other presentations, press releases or public statements are not currently available and may not be available on time or at all. Customers who purchase our services should make the purchase decisions based upon features that are currently available. salesforce.com, inc. assumes no obligation and does not intend to update these forward-looking statements.

Fairy Tale Platform

The background of the image is a satellite photograph of Earth, showing various cloud formations and landmasses from space.

A photograph of a construction site showing the early stages of a concrete foundation. The image features a large, rectangular steel cage (rebar) set within a wooden formwork. The rebar is arranged in a grid pattern, with horizontal bars supporting vertical bars. The formwork consists of vertical wooden studs and horizontal beams. The ground is dirt, and the overall scene is industrial and focused on structural engineering.
